

BACKGROUND INVESTIGATION AND ADDITIONAL DATA COLLECTION

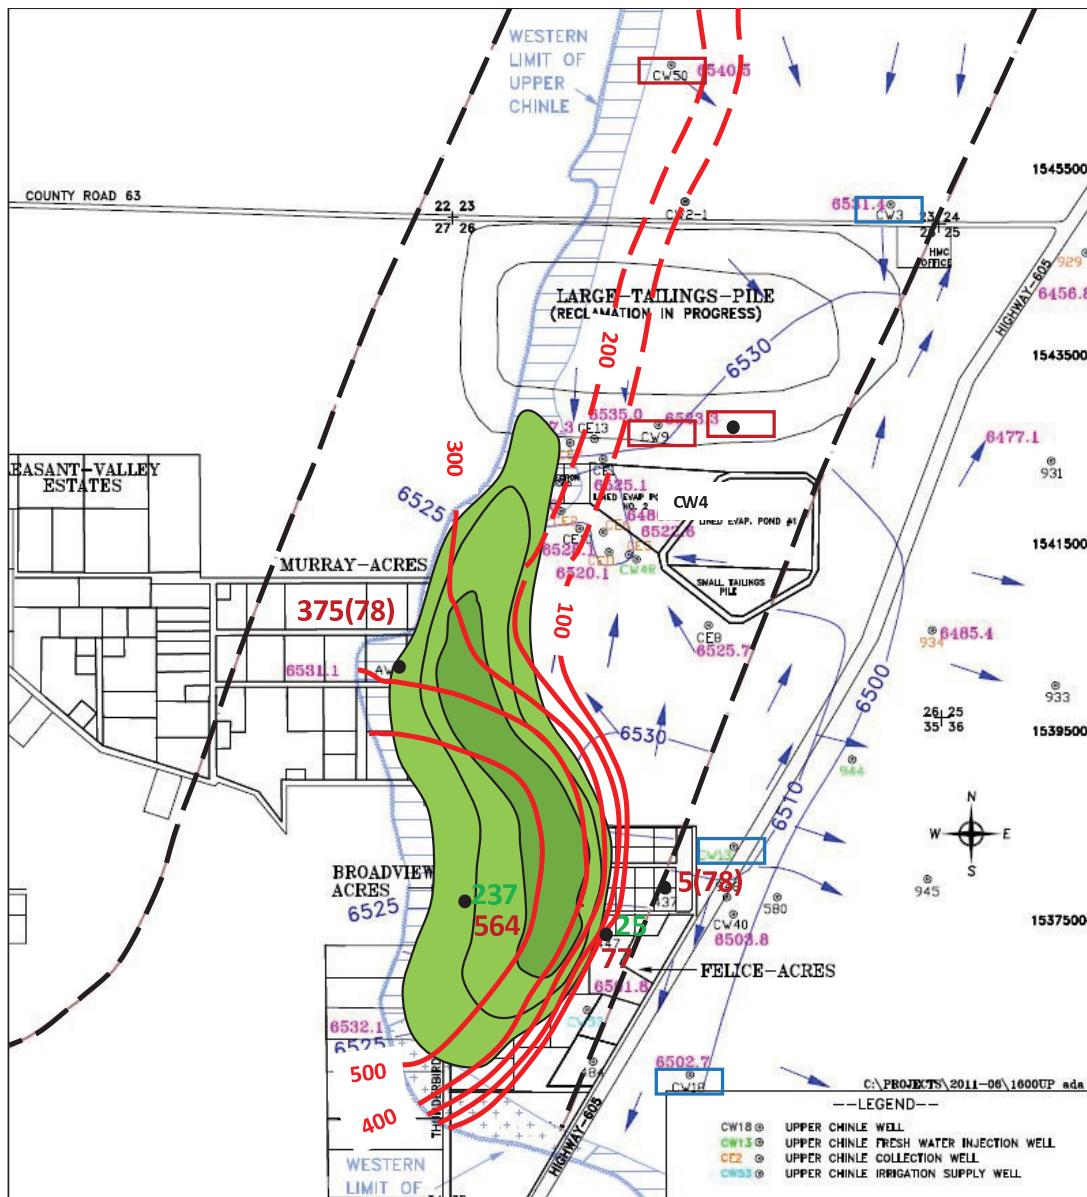

HOMESTAKE NPL SITE

March 31 Meeting
Santa Fe, New Mexico

DRAFT – FOR DISCUSSION PURPOSES ONLY

9787558

CALCIUM ISOCONCENTRATION CONTOUR MAP

Upper Chinle Aquifer

1976

- 508 Uranium (ppb)
 - 564 Calcium (ppb)
 - 5(78) Calcium (ppb) - 1978

Uranium >100 ppb

Uranium >250 ppb

Uranium >500 ppb

DRAFT – FOR DISCUSSION PURPOSES ONLY

CW18 Uranium and Calcium Trends

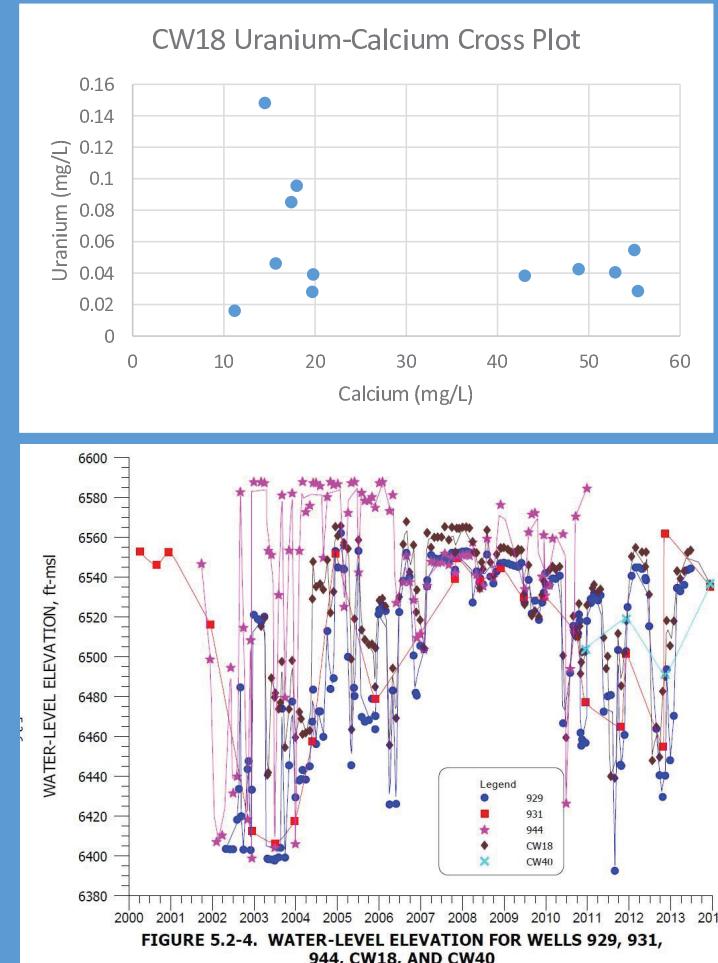

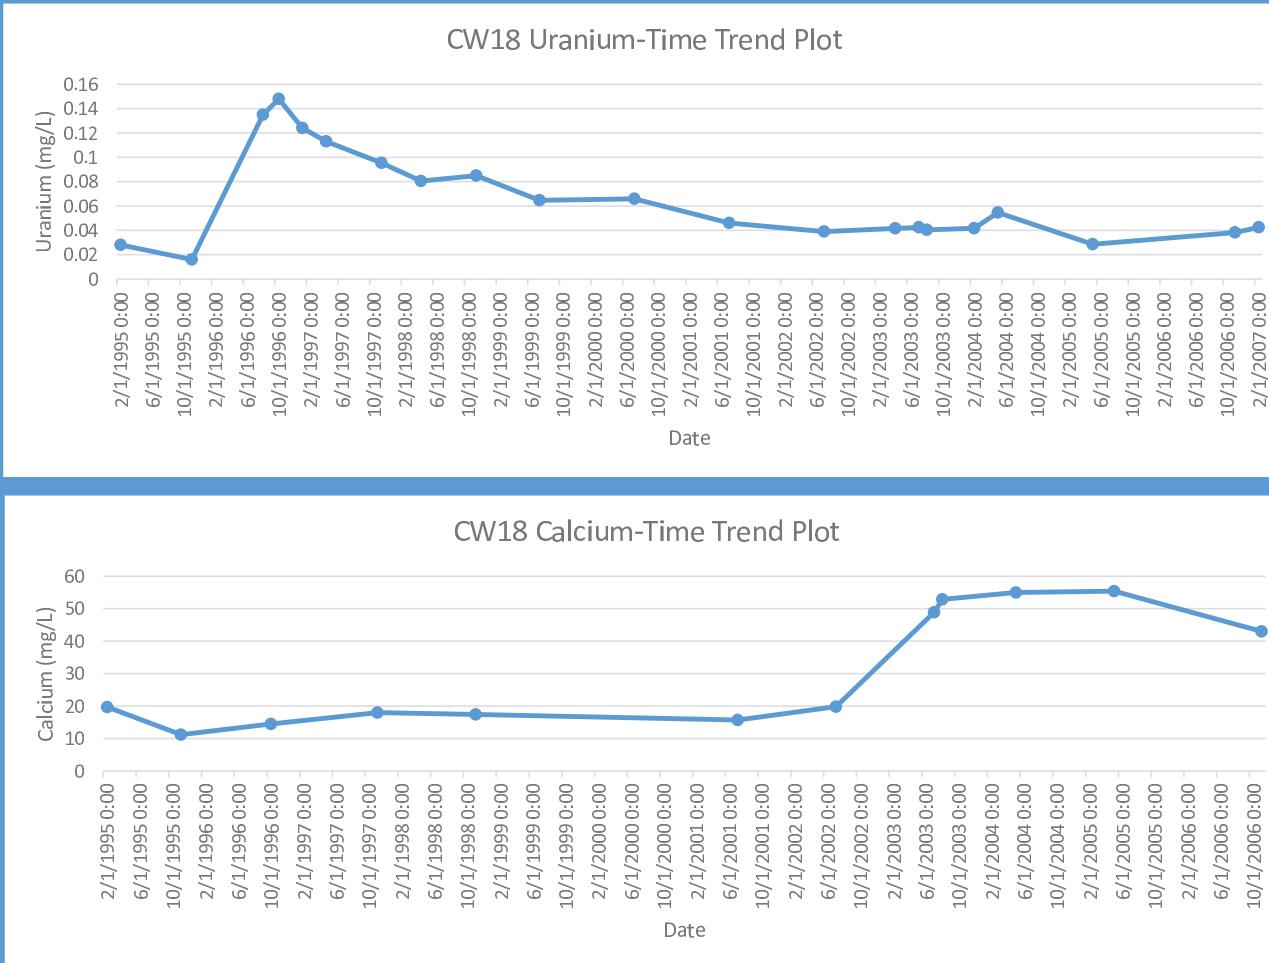

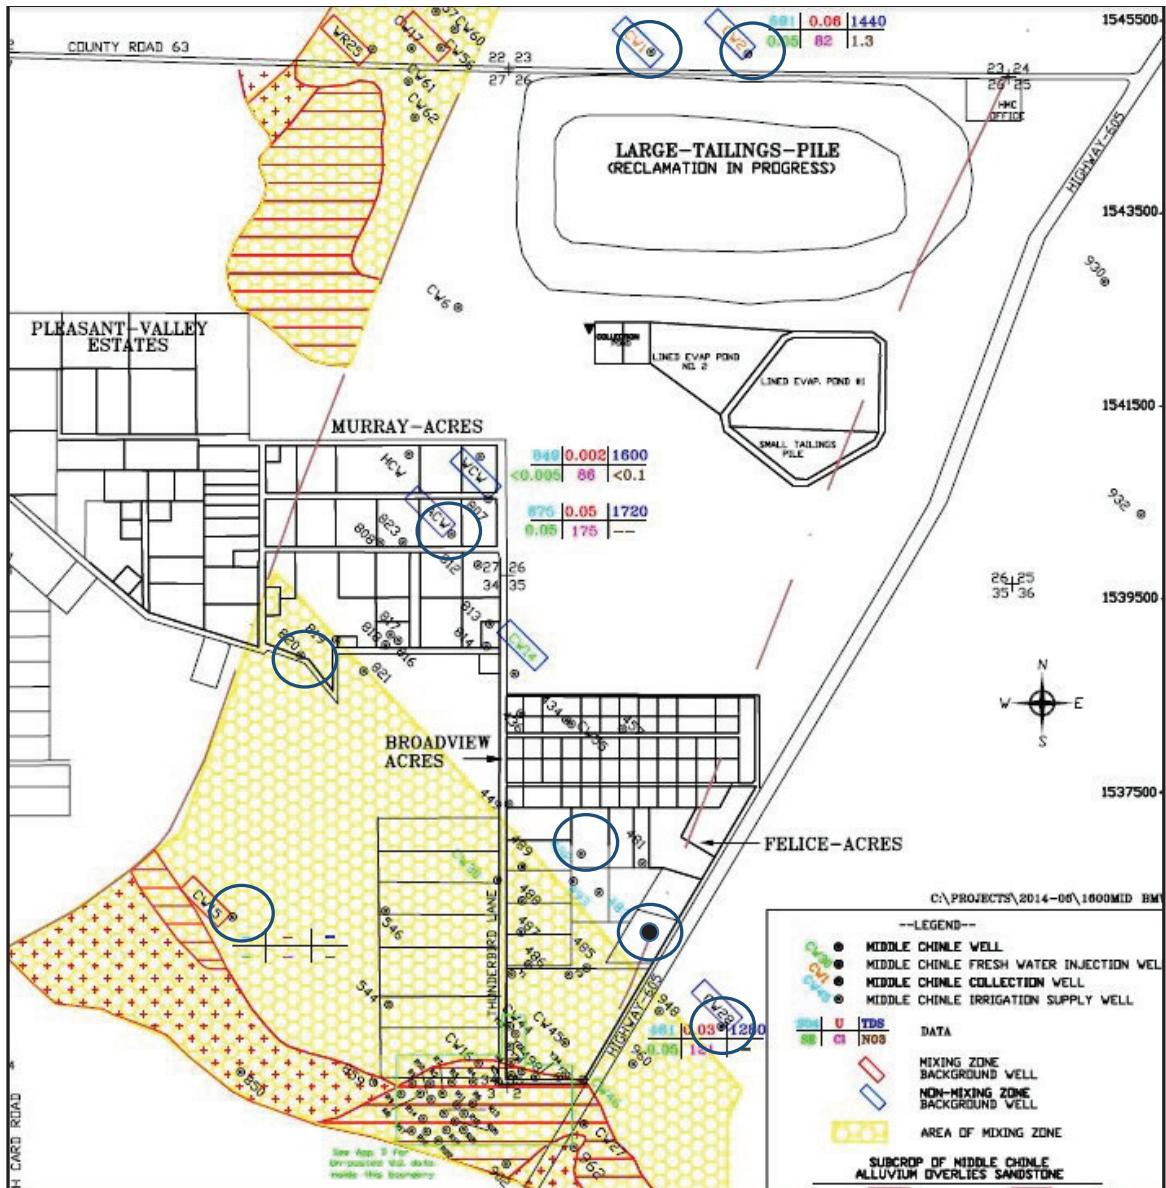

FIGURE 5.2-4. WATER-LEVEL ELEVATION FOR WELLS 929, 931, 944, CW18, AND CW40

WELLS CONSIDERED FOR ADDITIONAL TESTING UPPER CHINLE

- High Calcium – Low Uranium
 - CW50 – Mixing Zone
 - Uranium level increased to about 300 ppb in 2013
- High Calcium – High Uranium
 - CE7 – Mixing Zone, Impacted
 - Extraction Well
- Low Calcium – Low Uranium
 - CW18 – Non Mixing Zone
 - Uranium levels increased in 1996, but Calcium levels did not until 2003
 - Water levels varied over 100 feet between 2003 and 2014
- Low Calcium – High Uranium

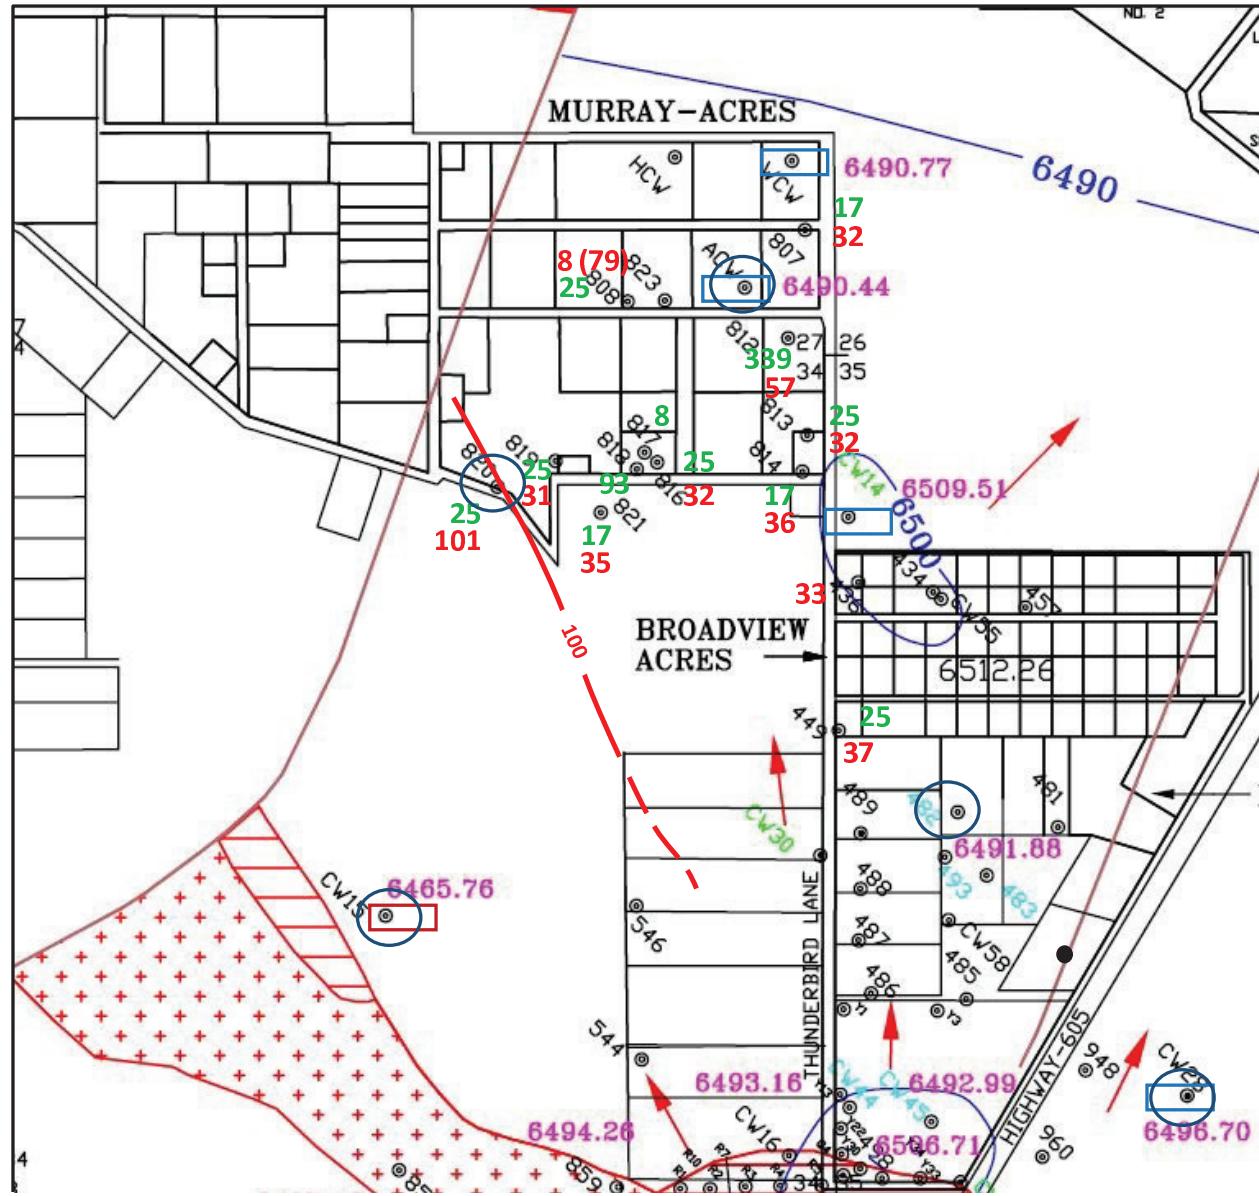

MIDDLE CHINLE MIXING ZONE AND BACKGROUND WELL LOCATION

HMC 2013 ANNUAL REPORT

Well Proposed for Additional Testing

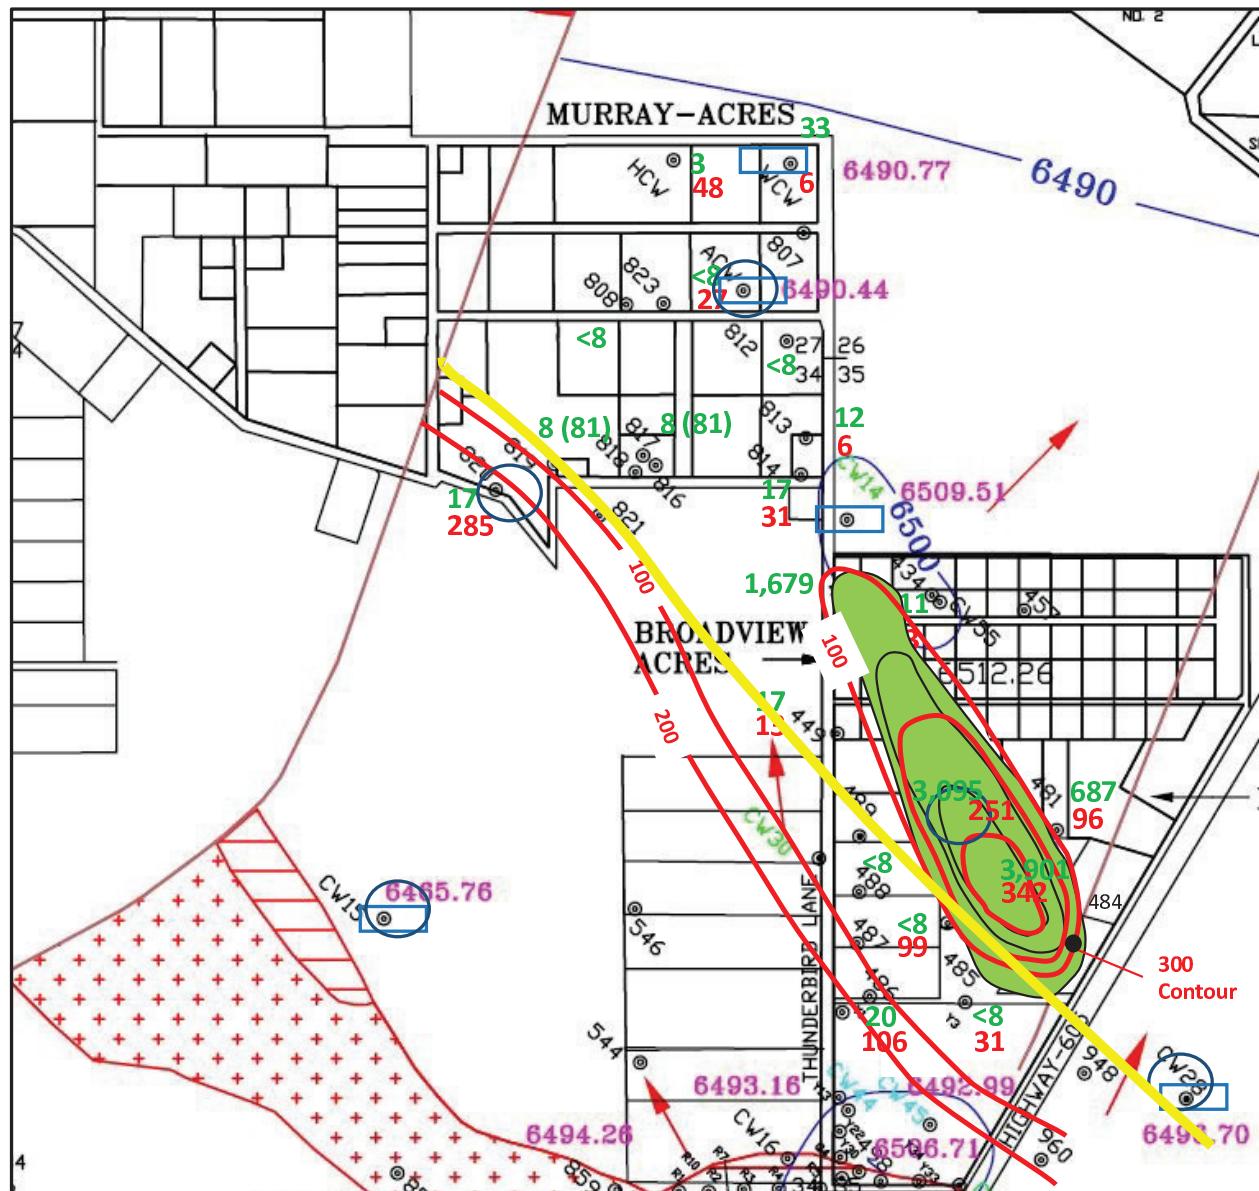

CALCIUM ISOCONCENTRATION CONTOUR MAP

Middle Chinle Aquifer

1976

DRAFT – FOR DISCUSSION PURPOSES ONLY

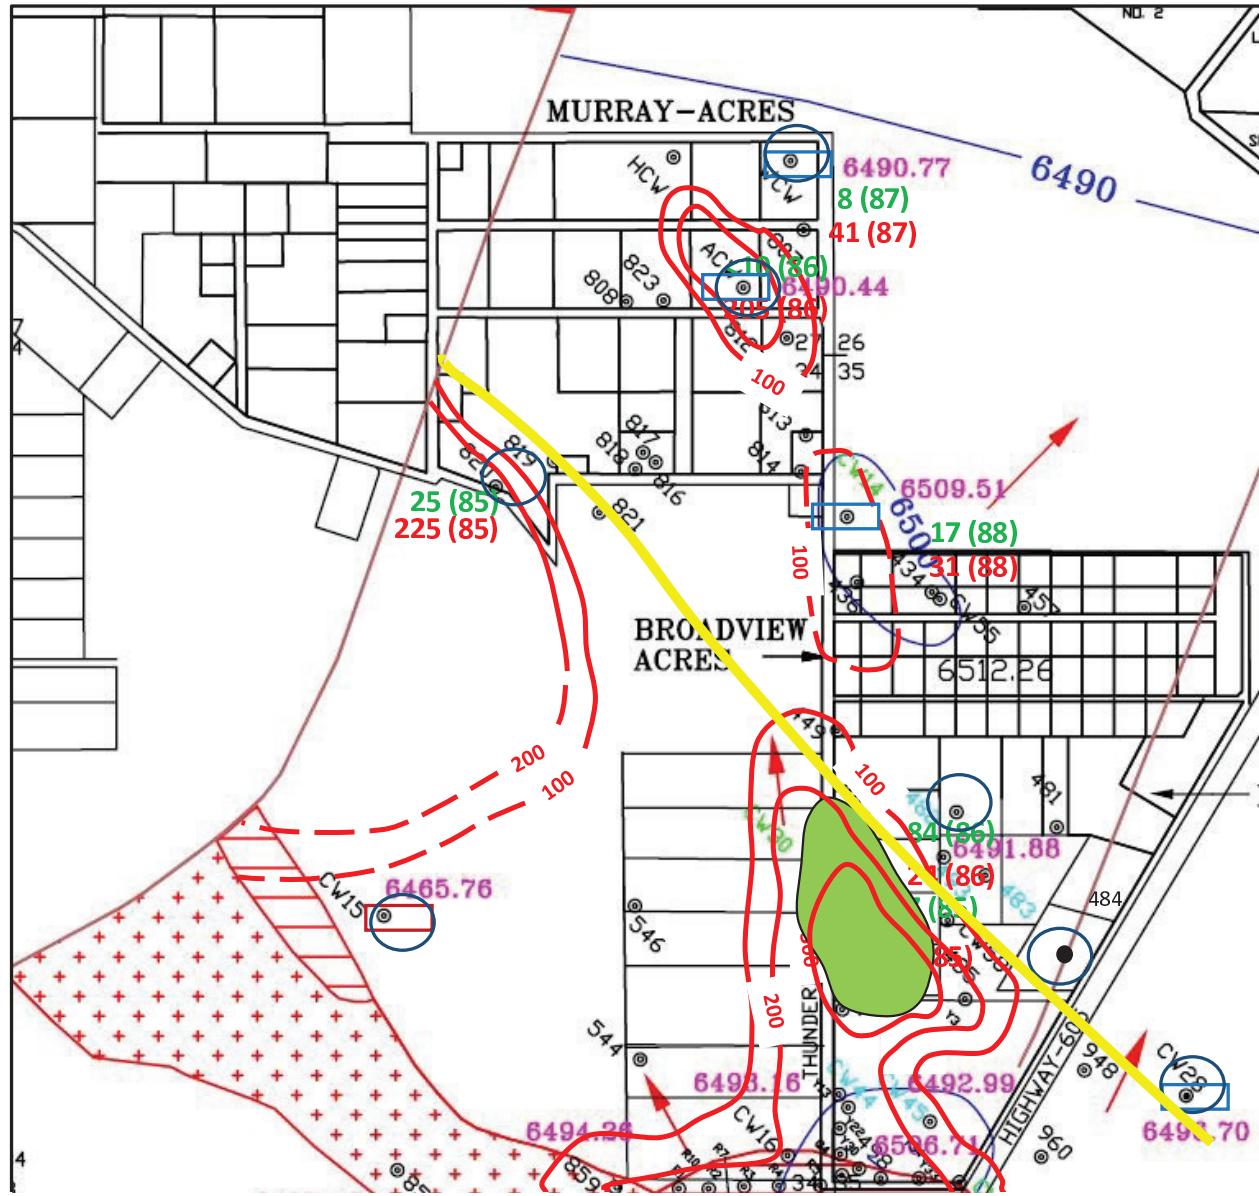

CALCIUM ISOCONCENTRATION CONTOUR MAP

Middle Chinle Aquifer

1981-83

DRAFT – FOR DISCUSSION PURPOSES ONLY

CALCIUM ISOCONCENTRATION CONTOUR MAP

Middle Chinle Aquifer

1985-87

 Uranium >200 ppb

DRAFT – FOR DISCUSSION PURPOSES ONLY

CALCIUM AND URANIUM ISOCONCENTRATION CONTOUR MAP

Middle Chinle Aquifer

1995-96

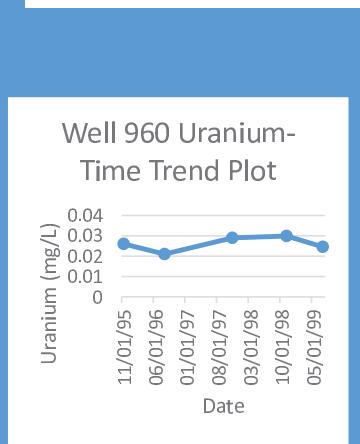

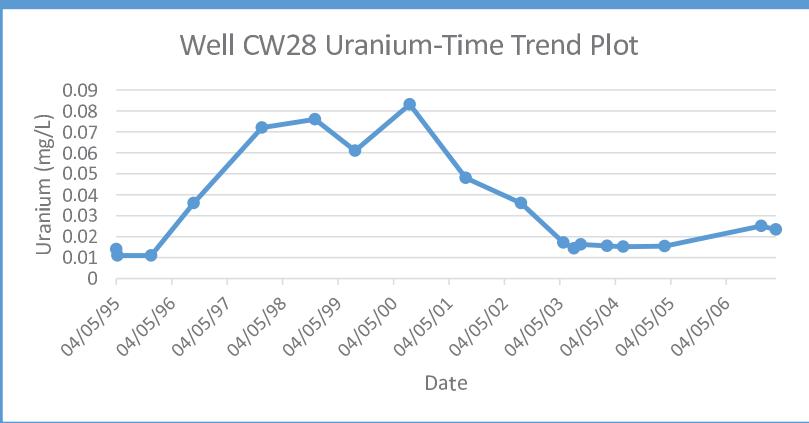

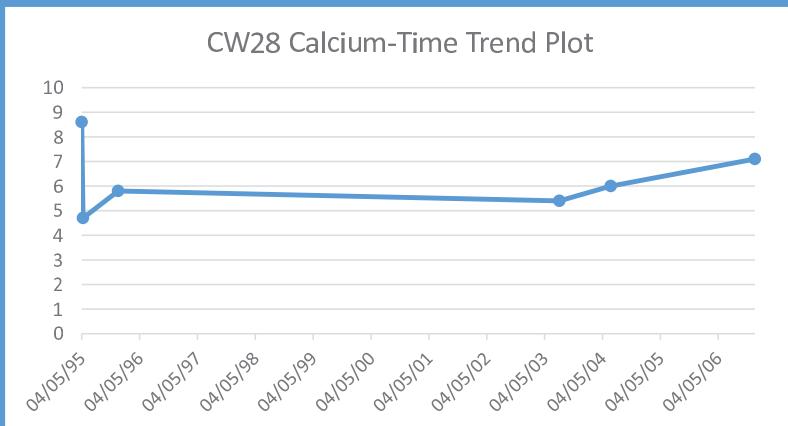

- Uranium >200 ppb
- Uranium >500 ppb
- Uranium >1,000 ppb
- Uranium >1,500 ppb

DRAFT – FOR DISCUSSION PURPOSES ONLY

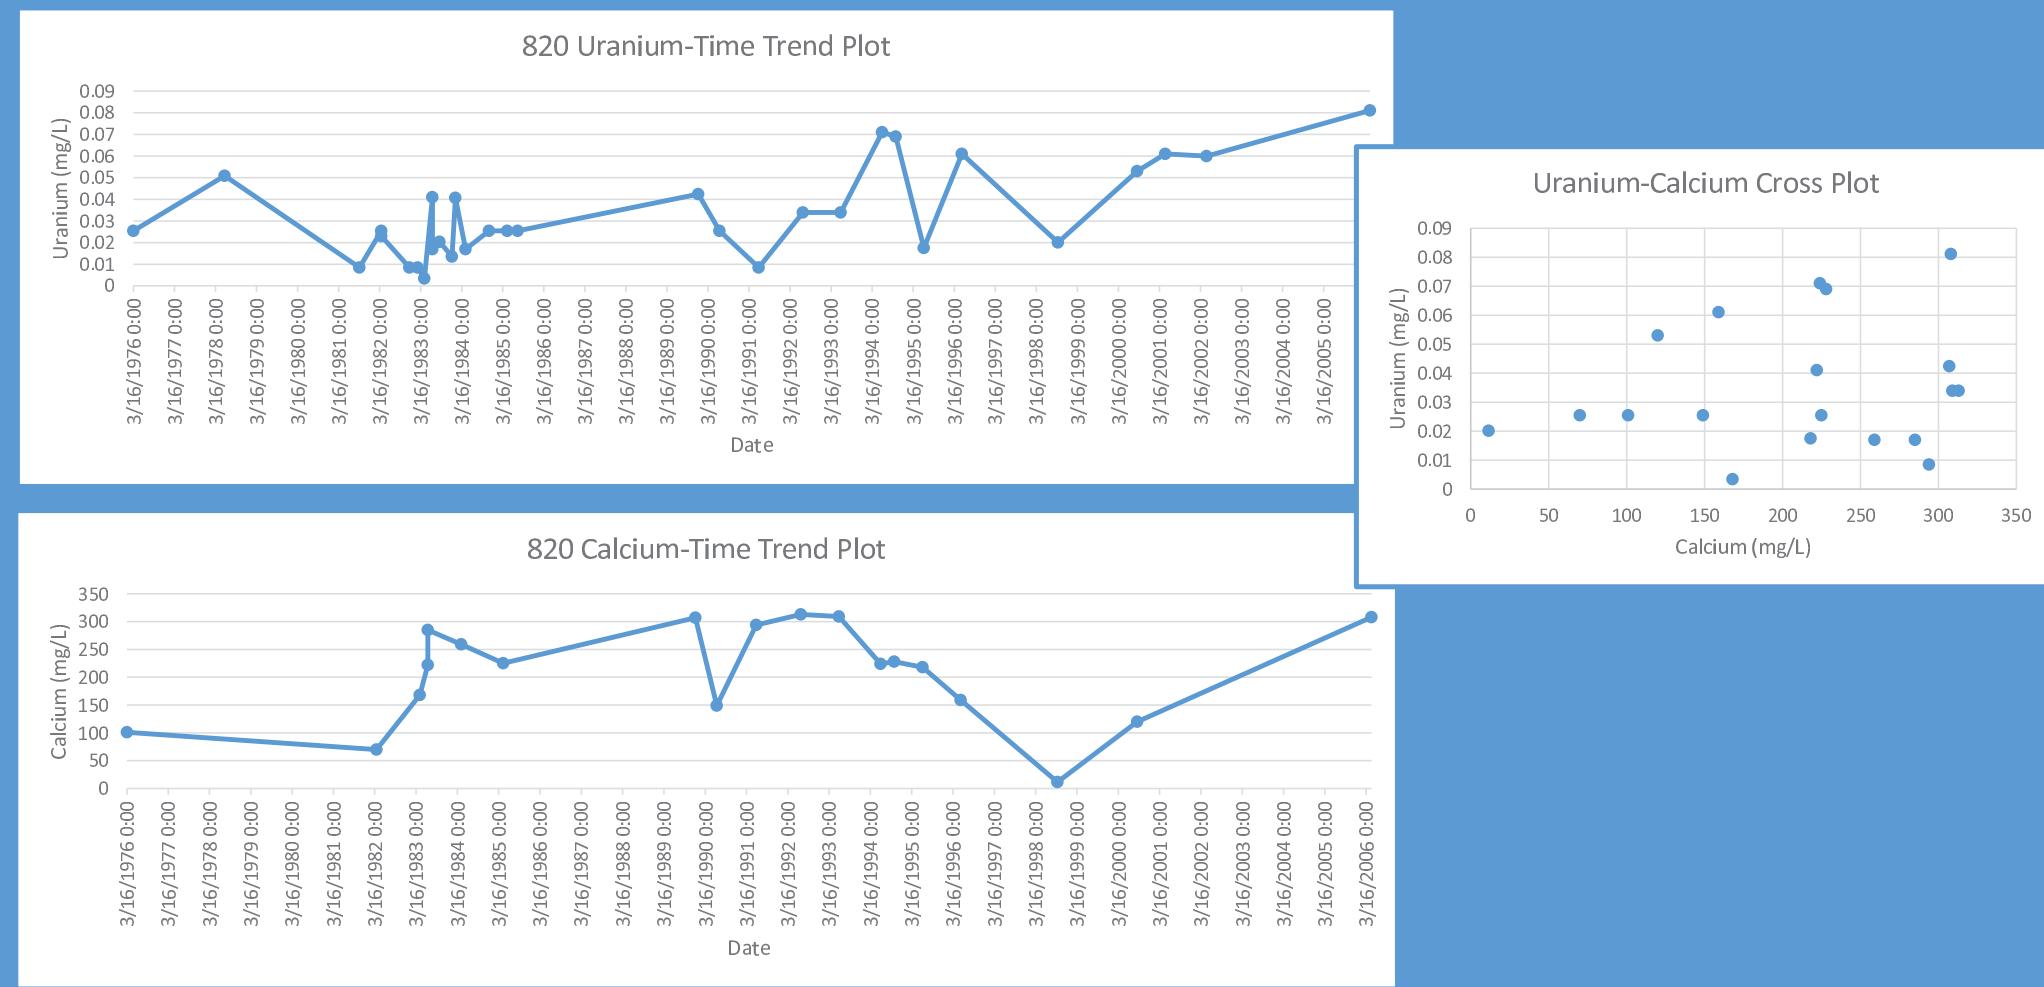

WELLS CONSIDERED FOR ADDITIONAL TESTING MIDDLE CHINLE?

- High Calcium – Low Uranium
 - CW15 – Mixing Zone
 - 820 – Mixing Zone
- Low Calcium – Low Uranium
 - AWC – Non Mixing Zone
 - CW28 – Non Mixing Zone
 - Uranium levels increase from <20 ppm to 80 ppb from 1996 to 2003;
- High Calcium – High Uranium
 - CW45 – Mixing Zone
 - Irrigation Supply Well
- Low Calcium – High Uranium
 - 484 – Mixing Zone
 - Along East Fault

CW28 Uranium and Calcium Trends

820 Uranium and Calcium Trends

CW15 Uranium and Calcium Trends
